Summary

Multimedia Engineering graduate with hands-on experience in web development. Currently working as an Associate Banker at JPMorgan Chase while actively transitioning toward a full-stack software engineering role.

EDUCATION

- **Bachelor of Multimedia Engineering** | CESUN Univeristy | Tijuana, Mexico | 2016- Dec 2019

GPA: 3.8/4.0

Relevant Coursework: Web Development I, Web Development II, Programming Fundamentals, Structured Programming, Database Systems, Computer Architecture

- **Front End Web Developer Certificate** San Diego College of Continuing Education | San Diego, CA | 2023

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, React (learning)
- **Backend:** Java (learning), Spring Boot (learning)
- **Database:** SQL, PostgreSQL (learning)
- **Version control:** Git, GitHub
- **Design tools:** Figma, Photoshop, Illustrator

PROJECTS

Rock Paper Scissors

Designed and developed an interactive Rock Paper Scissors game supporting single-player (vs CPU) and two-player modes. Built game logic with a round-based win/loss system, score tracking, and user input handling via keyboard and buttons.

Calculator

Built a calculator supporting basic arithmetic operations with real-time UI updates, user input handling, and error handling using DOM manipulation.

Stopwatch

Developed a stopwatch with start, pause, and reset functionality. Implemented accurate elapsed time tracking to ensure consistent timing.

CERTIFICATIONS & TRAINING

- **React for Beginners (Udemy)** – React fundamentals for frontend development.

- **Chase Bank – SQL Training (DataCamp)**
  - Introduction to SQL
  - Intermediate SQL

- **Programming Fundamentals (Udemy)** – Introduction to programming concepts, logic, and problem-solving using multiple programming languages as examples.
